Education

B. E. in Computer Science and Engineering

B. M. S. College of Engineering, Bengaluru

Sep 2025 – Jun 2029

CGPA: 9.475/10.0

Projects

College Event Platform

Jul 2026 – Present

- Architected the PostgreSQL database schema and backend for a campus event platform, implementing REST API routes for clubs, events, users, registrations, and attendance with authentication and registration constraints.
- **Tech:** Next.js, TypeScript, PostgreSQL, Better Auth, Tailwind CSS

Eco Refund

Apr 2026 – Jul 2026

- Built a Digital Twin simulator for a Reverse Vending Machine-based recycling system, modeling waste classification, contamination detection, UPI payouts, machine telemetry, MQTT events, and operator controls, alongside an interactive landing page.
- **Tech:** React, TypeScript, Vite, Tailwind CSS, Express, OpenAI

COMMIT-ed

Aug 2026

- Contributed to an open-source event leaderboard by building the projects page and implementing GitHub username verification for contributor submissions and badge generation.
- **Tech:** Node.js, JavaScript, SQLite, GitHub API

Simple Text Transfer Protocol

May 2026

- Designed and implemented a custom application-layer protocol in C for message transfer between a server and client, including framing, message parsing, and Caesar cipher-based encryption.
- **Tech:** C, POSIX Sockets

BLE Mesh Chat

Mar 2026 – Present

- A peer-to-peer chat app over Bluetooth Low Energy using expo-bitchat as the native BLE mesh layer, with end-to-end encrypted messaging across a decentralized mesh network
- **Tech:** Expo, TypeScript, React Native, BLE

Personal Portfolio Website

Aug 2025 – Present

- Responsive developer portfolio built with Next.js and TypeScript, deployed automatically via Vercel on every push.
- **Tech:** Next.js, TypeScript, Vercel

ReliefLink

Mar 2026 – Present

- Offline-first disaster communication system where distressed devices relay SOS signals over BLE to a local gateway; the gateway persists alerts to a database and surfaces them on an internet-connected admin dashboard built with React and Express.
- **Tech:** TypeScript, React, Tailwind CSS, Express, Node.js, BLE

Algorithm Visualizer

Jul 2024

- Visualized Bubble, Merge, and Quick Sort in real-time with step-by-step bar animations and a CMake-based modular architecture.
- **Tech:** C++, SDL2, CMake

Cosmic Troopers – Space Invaders Inspired Game

Dec 2022

- Built a 2D arcade game with a game loop, frame-rate-independent physics, sprite rendering, and AABB collision detection; shipped a playable v0.5.0 release.
- **Tech:** Java, JavaFX

Skills

Languages: JavaScript/TypeScript, C, C++, Python, Java, PostgreSQL, MongoDB

Frameworks/Libraries: React, React Native, Node.js, Express, Next.js, SDL2, JavaFX

Tools/Technologies: Git, Linux, Vim, Postman

Awards and Certifications

- CodeChef 1546 Rating
- Codeforces 820 Rating
- Samsung Innovation Campus, Coding & Programming
- Top 10 ICSE Students Meghalaya
- Valedictorian - Class XII
- Valedictorian - Class X
- COMEDK 2025 - 99%ile
- JEE Mains 2025 - 96%ile

Leadership and Involvement

Junior Core, Technical Team

Jun 2026 – Present

Protocol BMSCE

- Submitted a proposal for seasonal club events and contributed to building an event management app for the college and club.
- Worked on the COMMIT-ed project alongside other upcoming club initiatives.

Head Boy

Mar 2022 – Feb 2023

Meghalaya Police Public School

- Led and managed a council of 10 house and additional captains to organize school events, assemblies, and disciplinary initiatives.
- Organized training for march-past contingent for Independence Day parade.
